Microbial Sciences Symposium 2005
Program
Saturday, April 16th
Science Center, Lecture Hall C
Harvard University, Cambridge, MA

8:45-9:00 Opening Remarks and Welcome

9:00-10:20 Cannibalism and Commitment in a Bacterium
Richard Losick, Harvard University

Session I
Toward Single-Cell Analysis of Bacteria
Mary Lidstrom, University of Washington

10:20-10:40 Coffee Break

10:40-12:00 Life at Middle Age
Andrew Knoll, Harvard University

Session II
Genomic Perspectives on the Natural Microbial World
Ed DeLong, Massachusetts Institute of Technology

12:00-2:00 Lunch

2:00-3:20 Genomics of Bacterial Symbionts in Insects
Nancy Moran, University of Arizona

Session III
Uncultured Bacteria and Small Molecules
John Clardy, Harvard Medical School

3:20-3:40 Coffee Break

3:40-5:00 Genomic Insights into Bacterial Species
Howard Ochman, University of Arizona

Session IV
New Insights into an Old Story: Phage, Chromosomal Islands, and Emergence of Pathogenic Vibrio cholerae
John Mekalanos, Harvard Medical School

5:00 Closing Remarks
Reception
